Honolulu vs. H. B. M. S. S. "Satellite." This match, which was played at the Recreation

at 11:30 the "Satellites" having won the toss cted to go in. The wicket appeared to be in rectation but far more favorable to the bowler in the bataman. The Englishmen were out of theires and could do little or nothing with the callent bowling of the brothers Lishman. Mr ownse earned a new hat by taking in his record-ir three wickets with three concentive balls, is was the most remarkable feature of the fich. The Englishman were an hour at the

wicket and serie all out for the moderate total of truns.

The "Satellities" took the field and Messra, Woodhouse and Whitiney took up the defensive for Honolain. Mr. Whitiney was unfortunately on out just as luncison was called. It was a parater after one before play recommenced. There were no notewortaly festures in the batting, but the floodshus unsuaged, in the end to crawl over the "Satellite" score by three runs. The bowing of Sawar and Thurston deserves mention. The fielding of the men-of-war's men did extremely well. The innings of the house team closed for 40 runs. With but a short interval the "Satellites" went upain to the wickets and fared remarkably well. The first and second wicket fell like a flash, but topgaing joining Thurston a good stand was made. Mr. Topgaing cleated hearty cheers by lifting a alf volley from Tom Lishman into an adjucent said behind the pavilion. Mr. Thurston hit hard and deserves great praise for his placky 22.

at scorers, and without their aid the second go of the Englishmen would have cut a sorry new. The list wisket fell for 63 and thus heir opponents 61 to get to win.

The Gazette's Kauni Letter

Entroe Gazette:—An official visit to this side of the garden Island by a Japanese Inspector of Japanese Island respector of doubt whether Viscount Tori, the gantleman referred to, was acting in the interests of the Japanese Government, or of the Hawaiian Board of Insuigration. The public are politicly informed by a "By Authority" notice in the "organ" that he is commissioned by the Hawaiian Government, but from his mode of proceedire and the questions he submits to his countrymen, the uninitiated would infer that his business was solely in the interests of the Mixado. In fact, is a keen observer, it is almost conclusive that he is pothing more nor less than a protector of his countryment, and that his Hawaiian appointment is a blind. Though his intentious may be homorable, there is a doubt that the genuineness of its appointment under the Boreau of Immigration. He it said to the Viscount's credit, that he indefatigable in his investigations and exhauntive in his enquiries, but as the latter are addressed directly to the Japane in the Japanese language, modifying his keyn to the employer, of what is being said. This suggests the question, where are the protunsed interpreters? Or, is Viscount Tori the interpreter under the was sepiese of Inspector, that the day following his departure the Japanese sick list, or more properly speaking, the list of Japanese men workers was largely added to, e.g., his visit was not beneficial in a sanitary point of view.
